

# Users on Maps - Activity Feed

Site Admins are able to view our maps feature on the activity feed. Maps shows sites and users locations on sites.

## What can you see?

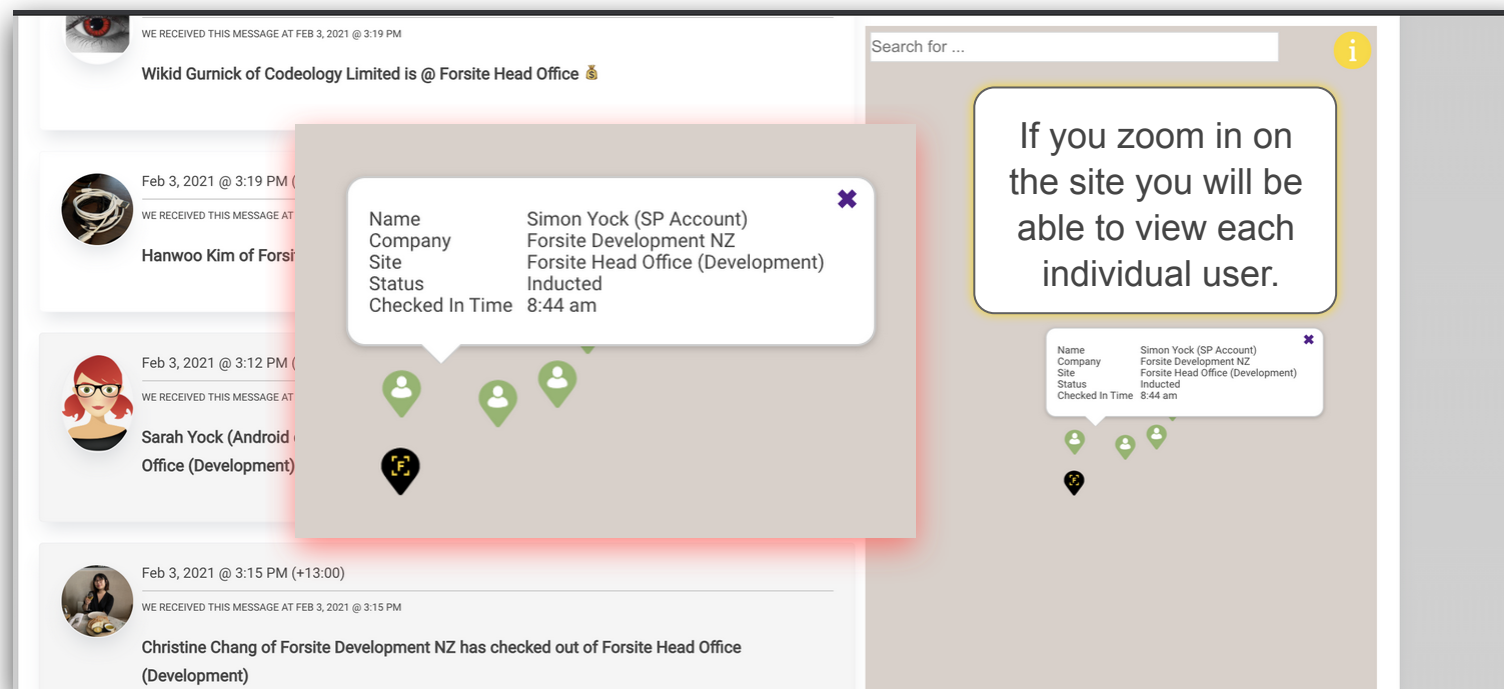

Note: You must enable location on your browser to view our maps feature.

### Users at their sites

Green Pins = Checked in Users  
Red Pins = Onsite not checked in

Click on each pin to see the user details.

The map feature does not show users outside the site. The map will only show users when they are located at site.

If you or your team have concerns over privacy or location services, please refer to our Privacy Policy.
